

Dear FCC....

I'm sure our founding fathers are turning over in their graves upon hearing this latest assault on our freedoms. NO...they are probably "break dancing" in their tombs!!! Don't let the whiny NAB take away something that has become so secondary and useful to us,the subscribers of XM radio!!

We love the XM !!!

I don't even listen to my new car's 6 CD changer anymore because XM is soooooooooooooo cool!!!!!!

And anyway.wasn't our constitution made to ensure our freedom and domestic tranquility instead of promoting discrimination????????

Let us keep our up-to-the-minute traffic reports etc.....the reports always come through...regardless of the atmospheric condition--an aspect that am or fm can't come even close to...

Please consider this request...

Sincerely concerned,

Robert D. Abell, Jr.
